

**INSTALLATION INFO for DNA filter P-S4SC11-01  
For: Suzuki Burgman 2007'-2010'**

The DNA High Performance filter P-S4SC11-01 is designed to replace the stock PAPER replacement filter, and the rubber tube located on top of the filter.

To install or later remove your DNA filter for cleaning it, please follow the detailed info listed below:

- 1.** Unbolt the air box and remove the stock filter following the instructions found in the Suzuki workshop manual. Clean the air box carefully and remove the foam insert from the bottom air box. (See photo below)

- 2.** Install the DNA filter.  
The DNA filter does not need the removed foam insert. It is designed to seal directly on the air box surface (groove)

- 3.** The DNA filter installed.  
Attention! The rubber tube is not used with the DNA filter.

- 4.** Install and close, the top air box cover, securing it with the 2 bolts.

Follow the Service Kit Instructions to service.  
Re-install following the installation procedure again.
