

INSTALLATION INFO for DNA filter R-HD12N07-01
For: Harley Davidson XL 1200/C/R/L 04'-07' Sporster , XL 883/C/R/L 04'-07' Sporster
XL50 50TH ANNIVERSARY 1200 Sporster

The DNA High Performance filter for the HD 1200/883 04'-07' Sportster is designed to replace the stock replacement filter & the gasket that is used for sealing the filter. To install or later remove your DNA filter for cleaning it, please follow the detailed info listed below:

A) Opening the air box and removing the Stock filter:

Open the airbox and remove the stock filter.

B) Removing the metal plate.

Using a flat screwdriver, remove the metal plate from the stock filter.

B) Installing the metal plate on the DNA filter:

Install the threaded metal plate on the DNA filter and altogether in the airbox using the stock bolts.

Attention !:

Do Not! Use the stock gasket, the DNA filter is designed to seal with out the stock gasket, using DNA's Quadra Seal Technology.

Removing the filter for servicing:

To remove the DNA filter for servicing, simply follow the above instructions to remove. Follow the Service Kit Instructions to service and re-install, following the installation procedure again.
