

## INSTALLATION INFO for DNA TC-Y7N14-S2

Application: YAMAHA MT07 2014' ALL

The DNA High Performance Stage 2 Air Box Cover TC-Y7N14-S2 is designed to replace the stock 'Air Box cover' of the YAMAHA 2014'. This DNA S2 Air Box Cover must be used **ONLY** combined with the DNA filter R-Y7N14-01 (sold separately). The DNA S2 it is not designed to be used with the OEM or any other filter.

If used correctly, the DNA S2 Air Box Cover and the DNA filter will increase the Airflow, Power, Torque and Throttle response of the bike.

***This S2 Air Box Cover Filter is developed for Race & track use and in some countries it may not be legal to use it on the road.***

1. Remove the stock air filter from the bike following the instructions found in the official Yamaha workshop manual. Be very careful when removing the stock filter so debris doesn't fall in the clean side of the air box.
2. Install the DNA Stock replacement Air Filter R-Y7N14-01 (SOLD SEPARATELY) in the air box carefully, push it to "sit" correctly, and then install the DNA S2 Air Box Cover.
3. At this point you must remove the rubber tube that is connected to the OEM cover diaphragm (see photo No.1 bellow) and connect it to the DNA S2 at the position shown bellow in photo No.2.

Photo No.1

Photo No.2

Use common sense and do not over tighten the bolts. Read the workshop manual for the recommended torque value.

Protect the filter when washing the bike and do not use a pressure washer on the filter.

Use the dedicated DNA Service Kit DSK-2001 (sold separately) to clean and re-oil, following the instructions included with the service kit.

***ATTENTION! Fuel Injection recalibration is absolutely necessary! Please use a Dynojet Powercommander, TuneECU or similar product to correct your fueling or else the bike will run lean and possible damage will occur.***

The manufacturer and seller make no warranties express or implied which extend beyond the description of the goods contained herein. Any description of this product is for the purpose of identifying it and shall not be deemed to create an express warranty.
